What's this game about?

In Bloons TD 5, there are only three things that you need to worry about during a match, and if you do well, that's all you can expect to have to focus on. There are no draws, and no interruptions in the flow of the game that would prevent your match from progressing. Still the challenge is great, and it's enough to hold it's own against Mario Party and Fire Emblem, while Bloons TD 5 is amazingly fresh. Feel free to try the longest online match, which can go up to about 12 minutes.

Where can I get the game?

The game can be downloaded from the Amazon Appstore for \$1.99, or on Google Play for \$2.99.

What does the offer involve?

The offer for Amazon includes not only the game, but a few features on top of that, including:

- No micropayment, no ads and no application
- At least 1 month of playability
- Double-ditching

What's new:

Welcome to Steampunk Monkey and the Steampunk TD 5! In the previous Steam Donkey win reports, we've seen multiple achievements granted to TD 5, finishing the set almost faster than the steampunk version of a monkey could finish smashing printers. We started seeing skins that ranged from Babbage (and no, I have no deep emotional ties to the outdated Sisley rendering of a tech-savvy steampunker - my childhood was simpler) and the even more simple Steam Monkey to end up with an amazing case for a banana themed steampunk ape. Today's image choices won't disappoint though, including a steampunk abstract rendition of a golden waterfall, a steampunk representation of a purple sun, a diorama of a busy steampunk meadow and a steampunk illustration of the wonders of two steampunk friends sharing a banana (Yeeeow!!-) Please remember that you can add your own Steam Monkey Sub Skin to the.esp file and enjoy it without ever submitting. For those who are interested in more steampunk Monkey fun, the spooky FGT-PC version can be found. This skin has alternate costumes for each TD with "Steam Monkey" and the "STEAM MULTI-PIPE BUG" costumes as well. This version also has 4 additional achievements and 1 trophy! Also of note, some of our main supporting features that helped us on TD 5 have not been removed; Steam Monkey Feed and our Steampunk TD Page still operate in the same way as it did before. Greetings, beloved Monkey. I always love finding new ways to play TD, and the latest update is no exception. Although my excitement was tempered a bit since the Steam Monkey Feed had not quite made it to 5.1, I cannot begin to say how much it has changed my strategy for this game. 9 steam-powered achievements (Steam Monkey Feed user's record!) is quite a number, and I look forward to the future as we play TD. We're getting a Monkey Feed from DinoZine (Steam Wreckage's website), and we need your votes, to pick both the pieces of this week. I'll vote for this image as the picture of the week from the new Steam Monkey Feed, but I also have a deal for you: Go to SteamWreckage.com and vote for the picture of the next Steam Monkey Day there.
