Firmware for sigmaNest.Q: Angular 4 - HTTPS - URL is rewritten but reload still not working I am trying to load a page that is using HTTPS on an Angular 4/Laravel Application. On the Angular component side I am doing a simple redirect like: this.router.navigate(['/myurl'], {replaceUrl: true}); And for the application I have in the app.module.ts the following: The application have all the imports in the front-end configuration file The URL is correctly redirected when the application is loading, as shown in the image below: However the "Re-Loading" image is not working. The URL is actually changed, but the reloading doesn't happen. My question is, what is missing here? Or am I trying to do something impossible? A: You may not have a RouterConfig for your backend. Add the RouterConfiguration to your backend-config file import { RouterModule } from '@angular/router'; import { RouterConfig } from '@angular/router'; @NgModule({ imports: [RouterModule.forRoot([{ path: '', redirectTo: '/admin', pathMatch: 'full' }, { path: 'admin', loadChildren: './admin/admin.module#AdminModule' }])],
